DENIT HOSTING SOLUTIONS

EMAIL SECURITY IN THE CLOUD OR ON-PREMISES INCOMING » OUTGOING » ARCHIVING

Local Cloud » SaaS Managed Email Security on your own servers »
API » Cluster-able » Synchronized » Frontend

The proliferation of spam, which accounts for 96% of the world's email traffic, has become a major annoyance to email users, corporations, and ISPs, and the problem is becoming worse. Significant losses in productivity and infrastructure capacity are only two of the negative outcomes of the most costly threat on the Internet today. Moreover, end-customers expect their webhosts to deliver enterprise-class email security and are nowadays demanding anti-spam solutions, as email has become business critical and the principal medium for written communication in the 21st century.

Quick Read

Denit is a managed hosting provider, focusing on the delivery of high quality customized hosting solutions for the business market. Denit has more than ten years of experience in the design, implementation and management of reliable and scalable hosting solutions, specializing in high-availability managed server hosting and co-location. The 'Denit approach' is characterized by outstanding service, decisiveness and a results orientation. Their mission is your online success.

Challenges

Denit's customers were being targeted by spam messages, so their customers demanded good affordable solutions. In addition, email-based IT-network threats caused users to be unknowingly open to spam, virus, phishing and spyware attacks.

Customer profile

Company	Denit Internet Solution B.V.
Location	Amsterdam, the Netherlands
Industry	Hosting, Dedicated Servers, Virtual Servers
Number of Domains	15,000
Products in Use	Local Cloud
Website	www.denit.nl

Implementation

Denit was immediately convinced after seeing the demo of SpamExperts' solutions. The solutions in combination with the price made it an easy decision for Denit because of our unique business model of offering licensed SaaS, unlimited users, alias domains, and traffic, which are available at an affordable rate. Prices start at EUR 0.30/ domain/year, no strings attached.

Benefits

SpamExperts' solutions tackled every challenge Denit was facing. For starters, spam issues have been solved through SpamExperts unique DNS-level filter, which filters more than 99.9% of all spam correctly and has false positive rates below 0.0001%, resulting in a spam free network. Moreover, significant time-savings were gained through less time spent on manual adjustments of other filters and easier maintenance by system administrators and support staff. In addition, our solutions offered higher quality for lower costs. But more importantly, SpamExperts offered the solutions which Denit's customers needed and increased value-added services to end-customers, who are finally relieved of spam.

Target Reached

"We were and are very happy with the solutions and services provided by SpamExperts. We are happy to be able to efficiently provide our customers with what they need(ed)", according to Rene Kaandorp, Manager Operations at Denit Hosting Solutions.
